⁵ Data transfer is from a healthy drive. Data recovery is from a failing drive. Successful in-house recovery costs \$275. When it cannot be recovered in-house, we recommend DriveSavers®. We treat all data with the same care and confidentiality we give our own data. (<http://www.drivesaversdatarecovery.com>)

⁶ Warranties do not cover software repairs or recovery, or failures due to accidental damage and abuse. Retro-fitting computers for mail-in repair, whether in or out of warranty, is also billable. Charges are calculated at the normal bench rate of \$110 per hour.

⁷ Responsibility expires 60 days after notification that repair is complete or repair is declined.
